

Speech Recognition and Dragon NaturallySpeaking®

- support to government agencies, including State, Local, Commonwealth, schools and not-for-profit organisations, by providing :

Advice and Information

- advice and information on speech recognition issues and requirements.
- regular newsletter bulletins with informative and useful tips
- regular user group meetings

Agencies that have used the service: DPAC, Police, CSIRO, TasFire, Veteran Affairs, DHHS, Education, Parks and Wildlife, DPIPWE, Teachers Registration Board, DIER, Australian Antarctic Division, UTAS, CSA.

“...The service that you provide to someone like myself, who is capable of working, but need Dragon to process work, has been invaluable...”

Training

On-site setup check (pre-training requisite) is \$99 including GST

Dragon NaturallySpeaking training is available at \$135 per hour including GST

Recommended training for beginners is 9 hours or more

Training is delivered preferably over sessions of 1.5 to 2 hours each with a suitable break in between sessions for the user to familiarise and practice those functions.

Discounts apply over increments of 3 hours of booked training. e.g. 3 hours is \$330

Advanced training & assessment/customisation of unsupported applications available upon request.

“Thank you for yesterday’s training. It was very useful. Look forward to next week.”

User Groups

Regular participation in a user group or forum is part of the key to achieving success in using speech recognition software. User group meetings are conducted by TMD on a regular basis at TMD and the University of Tasmania to support and motivate speech recognition users and discuss and resolve issues.

“Thanks very much for organising the meeting, I found it to be very helpful.”
